

Spotlight Max Data Sheet

Main Features

- **Projector Lens Modifier** for High-Powered Bowens Mount LED Fixtures
- **19° / 36° / 50°** Lenses Available
- Compatible with **ETC Projection Lenses** Via Separately Available **ETC Lens Adapter**
- **Custom Precision Optics** With Minimal Chromatic Aberration and Color Shift
- **Efficient Light-Blending Optical Design** for Compatibility with Full-Color Fixtures
- **Telecentric Element Groups** for **Even Edge-to-Edge Light Distribution** and **Minimal Distortion** of Illumination Circle
- **Spotlight Max Iris** Separately Available for Fine Tune Control of **Illumination Circle Size**
- **Advanced Internal Matting** Minimizes Light Leaks Within the Projector Barrel
- **Detachable Yoke** for Ultimate Rigging Flexibility
- **Included Rotatable Gobo Clip** Compatible with A and B-Size Gobos along with Rosco Metal and Glass Gobos
- Rotatable Gobo Clip Allows for **Easy Adjustment of Light Texture**
- **Built-In 4-Leaf Cutter** for Precise and Subtle Light Shaping
- Durable **All-Metal** Build
- Included Flight Case for **Maximum Protection**

Target Audience

The Aputure Spotlight Max is a powerful projection lens ideal for professional filmmakers and lighting technicians looking to achieve a tight and intense beam of light with a long throw using high-output Bowens mount fixtures.

Users who require highly color-accurate light projections and evenly-lit illumination circles will appreciate the custom precision optics in the Spotlight Max that maintains the color accuracy of its light source as well as minimizes chromatic aberration.

Filmmakers that need to texture and shape their lights will find the Spotlight Max's built-in cutters, the included Rotatable Gobo Clip and A-Size Gobos to be convenient and time-saving accessories.

In addition, users who value flexibility and compatibility will find the detachable yoke design and the Bowens mount to be ideal for expanding rigging and modifier options.

The Spotlight Max offers stellar optical projection performance and compatibility with high-powered fixtures, making it a crucial addition to any professional filmmaker's and lighting technician's tool kits.

Product Description

The Spotlight Max is a Bowens mount projection spotlight designed to be used with high-output LED point source lamps between 600W and 2600W of output such as the LS 600d Pro and the ElectroStorm XT26.

With custom precision optics, the Spotlight Max concentrates and efficiently blends light into a single, clean beam while maintaining its light source's color accuracy and mitigating chromatic aberration. The use of telecentric optical elements in the Spotlight Max ensures that the difference of the output field angle and beam angle are minimized, resulting in an illumination circle with even edge-to-edge light distribution, without any hotspots.

Spotlight Max is available with 19°, 36°, and 50° lenses, allowing it to cover a wide range of light projection needs on set.

Included in the Spotlight Max Kit is a Rotatable Gobo Clip that accepts A-Size Gobos (3 included), B-Size Gobos, and Rosco metal and glass gobos.

The built-in four-leaf cutter gives users even more control when shaping light output. Using a separately available Spotlight Max Iris, users also may quickly reduce the illumination circle size without needing to change projection lenses or physically move the fixture set up.

Featuring a detachable yoke, the Spotlight Max can be easily be mounted in upright or underslung positions, allowing for maximum rigging flexibility.

To maximize compatibility, the Spotlight Max comes with a durable Bowens mount and may be used with a separately available ETC Lens Adapter, allowing the Spotlight Max to be paired with any Bowens mount fixture on the market and ETC projection lenses.

The Spotlight Max includes a reinforced hard rolling case, making transportation and storage easy and safe.

Spotlight Max 36° Weight Chart

Fixture Combination	Weight (Lamp Head + Spotlight Max 19°)	Weight (Lamp Head + Control Box + Spotlight Max 19°)
LS 600d	15.99kg / 35.25lbs	20.24kg / 44.62lbs
LS 600d Pro	15.94kg / 35.14lbs	22.88kg / 50.44lbs
